To Planning Team Consultation, GMCA, Churchgate House, 56 Oxford Street, Manchester, M1 6EU

Regarding the Greater Manchester Spatial Framework revised draft 2019:

I am agreeing with the additions to the greenbelt in Tameside at Hyde Road, Mottram (the playing field); Broadbottom Road, Broadbottom; Ashworth Lane, Mottram; Longlands House, Hyde; and for removing the Mottram M67 North site from the first draft of the plan.

(Tick here if you agree with this statement)

This is for the following reason(s) (optional).

These sites are already green infrastructure and well suited to be classified as Green Belt

The playing field is particularly important as an amenity for local residents.

The sites, including the fields north of Hyde Road, are a valuable wildlife corridor

The area is highly congested with traffic and further residential development is not welcome

(Please comment further if you wish, here. Continue overleaf if necessary. State site you refer to)

(Optional addition. Please tick if appropriate below)

Also, I am objecting to the Policy GM Allocation 43 Godley Green Garden Village (Tameside) proposed development, **so I do not want this plan to go forward.**

(Tick here if you agree with this statement)

This is for the following reason(s) (optional).

The proposed site is currently Green Belt and the character of the area should be preserved

The plan should substitute brownfield sites to replace Godley Green

Stockport Road and the M67 carry much traffic, and further congestion should be avoided

Please comment further if you wish, here. (Continue overleaf if necessary, with title "Godley Green continued")

(Please sign) _____ *Hand the completed form in to our drop-off points.*
